**Inserting an image**

1. Place your cursor where you want the image to be inserted in your content.
2. Click the **Insert Image** icon on the tool menu.
3. Enter the **URL** for the image.
   
You can only link to images that have a URL. To create a URL for an image that resides on your computer, upload it to your personal homepage.
4 Enter a brief description of the image in the **Alternate Text** field. This text appears when a user hovers their mouse over the image and will appear in your content if the image is unavailable. It is also used by assistive technology to help visually impaired users interpret images.

5 Click **Insert**.

**Note** You can format the image using the formatting buttons in the tool menu.

**Inserting a link**

1 Place your cursor where you want the link to be inserted in your content.

2 Click the **Insert Link** icon on the tool menu.

3 Type the text you want to use as the link (e.g. “Weather Updates”) in the **Link Caption** field. The text is inserted in your content as a hyperlink to the specified item.

4 Type the **URL** for the page you want to link to.

5 Select how you want the link to open:
   
   - **Whole Window**
   - **Same Frame**
   - **New Window**

6 Click **Insert**.

**Inserting an equation**

1 Place your cursor where you want the equation to be inserted in your content.

2 Click the **Insert Equation** icon on the tool menu.

3 Enter your equation using the tool menu options. Each button on the tool menu opens a menu containing related symbols.

4 Click **Insert**.

**Inserting a table**

1 Place your cursor where you want the table to be inserted in your content.

2 Click the **Inserts a new table** icon on the tool menu.
3 Adjust the general properties, such as the number of columns and rows, and click **Insert**. A table, with the rows and columns that you have specified, is inserted into the HTML Editor ready for content and formatting.

**Editing table properties:**

1 Right-click anywhere in your table.
2 Click **Table Properties**.
3 Using the various properties settings in both the **General** tab and **Advanced** tab, you can format your table’s dimensions, color, borders, alignment, and more.

### Uploading resources or an existing homepage

If you have already created a homepage in another application, or you have graphics or media content you want to include, you can upload the resources to your homepage.

1 Click **Upload** on the main My Homepage page.
2 **Browse** to the file you want to upload and click **Upload**.

To find a resource’s URL:

Click on the name of the resource.

### Publishing your homepage

You must publish your homepage in order for others to see it. To publish your homepage, click the **Make this my homepage link** beside the page’s name.

**Note** If you create more than one page, use the **Insert Link** icon in the HTML Editor to create links from your homepage to additional pages.

### Deleting a homepage or resource

Click the **Delete** icon beside the resource you want to delete.
Viewing others’ homepages

Do one of the following:

- Click **Classlist** on a course navigation bar, find the user whose homepage you want to view, click the **View Homepage** icon beside their name.

- Have the user send you the URL for their homepage and view it using your browser.
